AN AFTERNOON WITH PTOLEMY **\$34.95**

The various works of Claudius Ptolemy (ca 85 — ca 165 CE) have survived the past 2000 years and over this period have been subject to close scientific and academic scrutiny. As astrologers, of particular interest to us, is his astrological textbook, Tetrabiblos. But what do we know of this man and his work? Who was this famous recorder of astrology, and did he get it right? In Part One of the Seminar, Mari Garcia examines Ptolemy's life and times and sets him in an historical context. In Part Two, Joy Usher uses examples from Tetrabiblos to discuss whether Ptolemy's astrology is a true reflection of Greek astrology, or merely a collection of his own musings on astrology.

MAID, MOTHER AND CRONE: PART I - SYMBOLS OF THE SACRED FEMALE **\$29.95**

The concept of Maid, Mother and Crone as an expression of the collective Sacred Female is one which has been gaining momentum over the past few years. Rather than lamenting the lost Goddess, this Seminar is a celebratory examination of these three roles and a comment on how we might incorporate the Sacred Female into our lives today. Not just for women! Part One discusses the breadth of the symbols which have been used over time to represent various aspects of the Sacred Female.

Joy Usher

MAID, MOTHER AND CRONE: PART 2 - MYTHS OF THE SACRED FEMALE **\$29.95**

Part Two takes the listener on a journey through the retelling of several myths with the Triple Goddess in mind. By exploring several themes common to all women [and men] we can determine which of Her roles we choose to embrace or reject.

Joy Usher

MAID, MOTHER AND CRONE: PART 3 - THE SACRED FEMALE & THE ASTEROIDS **\$29.95**

The Greek goddesses have always held a special place for those who wish to examine the feminine archetype through the four major asteroids: Ceres, Pallas Athene, Juno and Vesta. But goddesses are immortal, and as such do not undergo the human growth experience of ageing. This workshop looks at their placement in the natal chart and explores their intrinsic qualities as we transform the archetype from maiden to crone.

THE UNIVERSAL ROUND: CONNECTING THE 7 PLANETS TO MYTH **\$54.95**

One of the basic tenets of Hellenistic astrology is the concept of Domicile Rulership. In this six hour workshop, the link between sign and planet via Domicile Rulership is explored through Greek mythology, as myth provides an opportunity to not only understand the zodiac signs, but also their corresponding planetary rulers.

Joy Usher

PART OF FORTUNE: PART I — FORMULA AND PHILOSOPHY OF THE PARTS **\$29.95**

The 7 Lots, or Parts, have been an integral part of astrology since Hermetic tradition. And yet, today, the modern astrologer is likely to be familiar with only one, the Part of Fortune. This seminar examines the Part of Fortune, and asks, Why has this potent point lain dormant for so long? Part One introduces several important principles in medieval astrological practice and explores in detail the formulae of the seven original parts. As we ask ourselves what may have been the philosophy behind the Parts, we take this opportunity to trace the journey, and the diminishing popularity, of the Part of Fortune.

Joy Usher

PART OF FORTUNE: PART 2 — VERSATILITY OF THE MOON'S PART **\$29.95**

Part Two introduces a range of possibilities for the Part of Fortune. The widely known use of the Part of Fortune as Financial Significator, is only one expression for this versatile point. This Part was not only used to determine an individual's wealth and good fortune, but also a wide range of other factors which combined to create a happy, satisfying and successful life.

Joy Usher

PART OF FORTUNE: PART 3 — DETERMINING WEALTH IN THE CHART **\$29.95**

"What's the use of happiness?" the comic Henny Youngman asked. "It can't buy you money." Instinctively we all know that wealth cannot guarantee happiness. But wealth can increase our options. Wealth increases the scope of our choices and allows us the freedom to explore options which previously may have been limited by the cash in our bank account. Wealth instigates freedom, and it is freedom we yearn, not wealth itself. This workshop examines the signifiers for wealth in the chart through both modern and traditional methods.

Joy Usher

RELATIONSHIPS **\$29.95**

It is often said that no man is an island, and as human beings, most of us are dependent on good relationships to provide us with security and stability. This lecture explores the indicators for an individual's capacity and desire to form relationships and their ability to pursue them.

Mari Garcia

SIGNS OF SCIONS: FERTILITY IN THE NATAL CHART **\$29.95**

The importance of children and the ability of a person to have and to benefit from them has been an important consideration in all times and across all cultures. This lecture explores the traditional literature and the application of principles and techniques to determine the potential of an individual to produce children.

Mari Garcia

THE DRAGON'S PATH: THE MOON'S NODES **\$29.95**

The Moon's Nodes have always held a fascination, as they have traditionally been associated with the concepts of karma and destiny. They were also considered to have both malefic and benefic qualities. The importance of the Lunar Nodes has survived in the practice of Hindu astrology but Western astrology has relegated the Nodes into a miscellaneous basket. This workshop will explore the astronomy, history and tradition of the Nodes and their application in natal astrology.

Mari Garcia

TREASURES & PLEASURES: THE FIFTH HOUSE **\$29.95**

An in-depth look at what the fifth house represents in a natal chart and the wealth of information it can provide about the person. The nature of creativity, pleasure and honours is explored via the application of traditional techniques. These include essential dignity, house position, condition and triplicity rulers of the houses.

Mari Garcia

WHAT MAKES A PLANET HAPPY: A PLANET'S JUDGEMENT **\$29.95**

Planets have definite preferences as to what makes them happy, and what does not. A planet's comfort and therefore its ability to perform, depends largely on its condition in the chart. Using simple medieval techniques, we can judge the planet's condition, determine how effective it can be, and assess if the planet is working for you, or against you.
